tucck

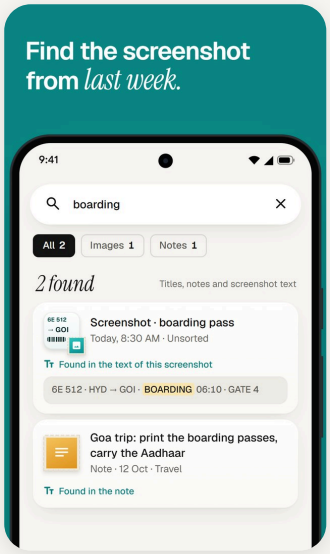

Live on Google Play

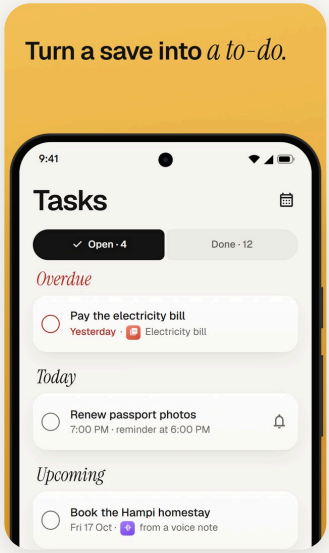

Tuck it before you *forget* it.

The links, screenshots, PDFs, voice notes and ideas we mean to come back to end up scattered across chats, galleries and downloads. **tucck gives them one inbox**, so you can find them again and act on them.

Save from any app

Share to tucck and it's saved, without leaving the app you're in. Home-screen widgets for one-tap capture.

One inbox

Links, screenshots, PDFs, documents, voice notes and notes, together and sorted by day.

Find it again

Search titles, notes and the text inside your screenshots.

Voice notes

Hold the mic and talk. Your note is transcribed on the phone.

Tasks and reminders

Turn any save into a to-do with a reminder or a countdown.

Spaces

Group saves by trip, project or topic, and lock the private ones.

ON YOUR PHONE

tucck for Android

Capture in a second, wherever you are. Works offline and syncs when you're back online.

ON YOUR COMPUTER

tucck web · tucck.app

Work through everything you've saved on a bigger screen.

Get tucck on *Google Play*

Scan the code, or search “tucck” on Google Play.
